2018-2019

24th Annual H.O.P.E. Contest

STUDENT DIRECTIONS

Sponsored by the Humane Society of Greater Miami, Adopt-A-Pet, and Dade County Animal Services Department

This Year's Contest Theme is:

Methods to make pet ownership less expensive

Approximately 7.6 million companion animals enter animal shelters nationwide every year.

Approved by:

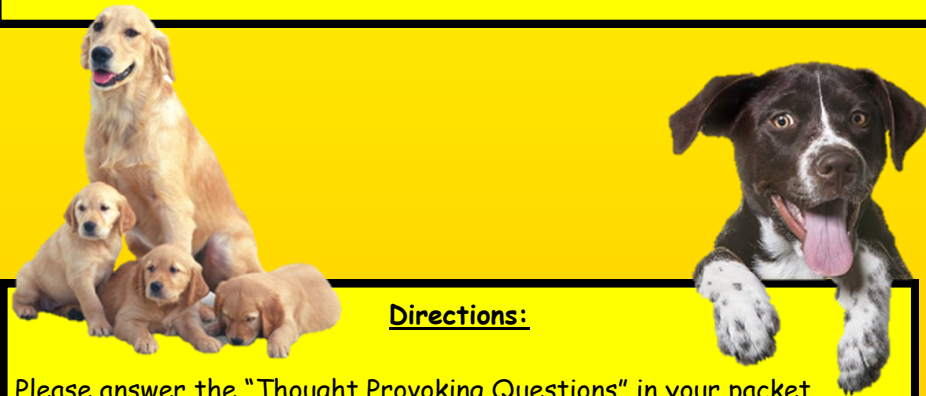

Miami-Dade County Public Schools' District Contest Committee

Help Overcome Pet Euthanasia/Helping Our Pets Every day

**This year, the H.O.P.E. Contest will focus on
Methods to make pet ownership less expensive.**

Many unwanted dogs and cats find their way to the Humane Society of Greater Miami and Animal Services of Miami-Dade. This large population of abandoned animals is often the result of mistreatment, neglect or cruelty. In some cases, people adopt pets but are unaware of rules, restrictions, and responsibilities that may result in owners returning their animals to the shelter. For others, the cost associated with pet ownership become prohibitive.

The Humane Society of Greater Miami/Adopt-A-Pet, and Miami-Dade Animal Services want to make sure all pets get the love and care they deserve while emphasizing the value of organizations that help protect animals.

Directions:

Please answer the "Thought Provoking Questions" in your packet, as a team or group. This is to be completed at the beginning of the project and is Part I of your project.

Then refer to the materials in the packet to do a multimedia project or report. The project or report will require an explanation in 500 words or less about what your team or class did to address the topic "Methods to make pet ownership less expensive". This is Part II of your project.

Remember: Creativity Counts!

Your project may target the school you attend, the surrounding neighborhood, the community, the media, a political representative, or a social organization. Examples include giving presentations on closed circuit television, sponsoring a dog wash, preparing literature for community awareness, providing a PowerPoint presentation, setting up a link to a Website, starting a Facebook page, creating an APP, or using Social Media.

Your final report must include the answers to the "Thought Provoking Questions," and a 500 word or less summary explaining what you did in your community to highlight and communicate the value of making informed decisions about being a pet owner. The project may be printed or written legibly in black ink on 8.5" x 11" white paper. You may include up to 10 photographs and 2 sample flyers. Also, please enclose a USB drive with your PowerPoint presentation or link to a website, a Facebook page or an APP for easy access to your project.

Procedures for submitting entries:

Team Division: Elementary, Middle, and High School

ONLY 2-4 students per team please.

There is no limit to the number of teams entered.

Classroom Division: Elementary students only

The entire class may participate.

To participate: Attach a registration card, to be downloaded from Dr. Karp's website, to your final report with any supporting materials such as visual aids or poster boards and/or USB drive. Each final report must be sent in its own envelope and received by

Friday, February 8, 2019.

**All projects and materials will be returned
to the teacher by the end of the school year.**

Friendly tip: Get a head start! Work on projects during winter recess.

Hey students — you can also ask your teacher to call the Humane Society to schedule a humane education visit at 305-749-1820 or Miami-Dade County Animal Services at 305-418-7149.
